We

The proposal is to shift the existing 5 armed ornamental theme lamps from Ganesha Square to Vani Vilas Market-Circle. The cost is estimated at Rs 876 & the point for decision here is as to whom to be borne - the Municipality or the Govt —

I would suggest that the lamps might be left where they are in the Vani Vilas Market Square must have a lamp of this kind & a new one may be installed there The cost of installing the new lamp is about Rs 1350 as against an expenditure of nearly Rs 900 towards the shifting of the lamps now proposed involves The cost of the new lights may be borne equally by the Govt the Municipality & the president who be consulted

I agree with the proposal to shift 5 such lights to a circle of 5 on a high post

5/9/84

Returned with compliments to the Secretary to Government, Electrical Department

The charges for shifting, as a rule, should be borne by the Municipality, as this is a case where a lamp has been installed at the request of the Municipality at a particular place and they now desire the lamp to be shifted The cost of the original installation was borne by this department, the estimate therefor having been sanctioned on the basis that it would fetch about 12% gross revenue on the capital outlay Now, if further expenditure is to be incurred by the Electrical Department to shift it, there will not be any additional revenue for this additional outlay and the result will be a loss of revenue on the total capital expenditure involved in the original installation and subsequent shifting of this light If this Department be directed to incur charges on account of such shiftings in the case of one Municipality, the same concession will be claimed by several other Municipalities, which will then result in additional capital expenditure being incurred by this Department without any corresponding return for the same Hence, I am of opinion that the charges for this shifting will have to be borne by the Municipality or debited to "12 General Administration" as the royalty on this is being debited to "12 General Administration"

President, City Municipal Council,
Mysore

GEN 6 AUG 1934

CHIEF SECRETARY 4 AUG 1934

To

The Chief Secretary to the Government
of His Highness the Maharaja of Mysore,
Bangalore

Sir,

I have the honour to state that it was suggested by the Dewan during his inspection of the City that the existing 5 armed Ornamental lamp post in Gandhi Square may be shifted and fixed in the centre of Vani Vilas Market Circle The Electric Department was addressed in the matter and the Superintendent has forwarded an estimate for Rs 876/- for being returned with countersignature and funds

In this connection, it is submitted that in view of its present financial condition, it is not possible for the Municipality to find funds for the proposed work

I therefore request that the Government may be pleased to instruct the Electric Department to execute the above work by debiting the cost to General Administration

I am also enclosing herewith for the information of Government an extract of my report sent to the Private Secretary to the Dewan in regard to the execution of this work

The favour of early orders is requested in the matter

I have the honour to be,
Sir,
Your most obedient servant,

President

PVR

Extract from the Report sent to the Private Secretary, (7)

to the Dewan of Mysore, Bangalore

****

Item	Report
The Central Ornamental Electric lamp post with four arms in the Gandhi Square may be removed and fixed in the Vani Vilas Market Circle The four Islands in the square may be provided with two lights each one at either end of the Island	The Superintendent, Power and Lighting has forwarded an estimate for Rs 876/- for counter signature and return with funds for further action The difficulty lies in providing funds for the purpose as neither the Municipality nor the Trust Board is in a position to provide funds for such works with its limited finances Similarly for shifting one ornamental lamp-post behind the Jubilee Hall on Krishnaraja Road an estimate for Rs 105/- has been forwarded As royalty is being paid on these lights either by the Municipality or by State Funds, the Electrical Department may kindly be instructed to carry out such works without levying any charges therefor as otherwise it would be very -- difficult to shift the lights in accordance with the improvements carried out under instructions

---

President
